** Legal services provided through Lisa Lifshitz Professional Corporation*

Lisa is a partner of the firm in Torkin Manes' Business Law Group, specializing in the areas of information technology and business law and is the leader of the firm's Technology, Privacy & Data Management Group. Lisa has particular expertise in preparing and negotiating technology agreements, including Internet-related, m-commerce and e-commerce agreements, cloud computing agreements (SaaS, PaaS, IaaS), cloud retail agreements, cloud storage agreements, app development agreements, hosting agreements, mobile payment agreements, reseller, distribution, outsourcing, system acquisition, maintenance and support agreements, master services agreements and consulting and services agreements. She provides technology-related advice on financings and acquisitions, including export control on cross-border deals. She also provides guidance on IoT, AI/smart contracts, blockchain and open source legal matters. Lisa has considerable experience helping non-Canadian companies, especially American entities, create appropriate legal agreements for their entry into the Canadian marketplace.

Lisa also practises in the area of privacy and information management, advising both Canadian and international clients on compliance with Canadian privacy requirements. She routinely advises clients on trans-border data transfers, data breach management, privacy compliance in corporate transactions and negotiations, and privacy due diligence in connection with information technology transactions. She also advises on compliance relating to Canada's anti-spam legislation.

Lisa is a sought after speaker and has written extensively within the field of IT Law. She writes a monthly "IT Girl" column in *Canadian Lawyer* and is also the co-editor and a contributor to ***Cloud 3.0: Drafting and Negotiating Cloud Computing Agreements***, published in May 2019 by the American Bar Association.
